

Campus job

Stormwater Technology Review

This is a position at the Office of Water Programs (Modoc Hall) assisting in the preparation of technology reports for Caltrans. These reports are comprehensive catalogs of available technologies for stormwater management of construction site runoff and urban runoff from developed areas.

Duties:

- Review and summarize available technical information from conference proceedings, journals, and other publications.
- Update and maintain a database of technologies
- Report writing
- Support OWP engineering staff in other projects

Benefits: Gain a comprehensive knowledge of the state-of-the-art of stormwater pollution control technologies for construction (temporary) and post-construction (permanent). Good experience for future career in construction, Caltrans, SWRCB, Regional Water Quality Control Boards, consulting, and municipal stormwater programs.

Compensation: Salary commensurate with experience and courses completed, up to \$18 for undergraduates. Maximum of 20 hr/wk during the semester. Possibility of continuing through the summer.

Email resume by Monday December 17 to:
Brian Currier
