COURSE DESCRIPTION

Dept., Number  CSC 194  Course Title  Computer Science Seminar
Semester hours  1  Course Coordinator  Varies
URL (if any):  

Catalog Description

A series of weekly seminars on Computer Science topics. These topics cover subjects not normally taught in the course of a school year and they range from the very theoretical in Computer Science through applications, to presentations by industry on working conditions, real world environment and job opportunities. Note: May be repeated for credit. Prerequisite: Upper-division or graduate standing in Computer Science.

Textbook

No textbook required.

References

Handouts from guest speakers.

Course Goals

To expose students to Computer Science and Software Engineering topics they would not normally receive in the course of a four-year college degree.

Prerequisites by Topic

None.

Major Topics Covered in the Course

Topics vary from semester to semester.

Laboratory Projects

None.
